- English

• Profile

A Computer Science graduate with strong knowledge of programming, databases, and problem-solving. Skilled in Android Studio, Machine Learning and Deep Learning, Python and more with hands-on experience in developing mobile and web applications. Looking for opportunities to apply my technical skills in real-world projects and continue learning new technologies.

• Work Experience

Freelancing

Country: United States

[10/07/2024 - 10/02/2025]

- During my remote freelance contract, I worked on Android XML UI design, where my responsibilities included modifying and enhancing existing layouts. I implemented UI changes such as replacing buttons with radio buttons, updating button styles, and adjusting colors to match client requirements.

• Education

- BS In Computer Science COMSATS University Islamabad, Attock Campus

• FYP Project

Smart AI Diet Consultant(FYP Project)

Android Application | AI-based Diet Recommendation

- Developed an Android application that provides AI-based personalized diet plans
- Collected user details such as body type, weight, height, lifestyle, and health conditions
- Generated diet plans for weight loss, weight gain, and healthy living goals
- Implemented user authentication with login and registration functionality
- Integrated admin and nutritionist support for expert guidance
- Enabled users to view updated diet-related posts and recommendations
